

ECG electrode belt with 9 out of 10 pre-fixed: simply center the V1 and V2 electrode evenly on both sides of the sternum, place the straps around the arms and attach the belt buckle

 **No Gel**

Works with grease-free electrode spray or salt water.

 **No Shave**

Gives artifact-free waveforms for most patients, even without shaving.

 **No Error**

Auto-engages electrodes at right locations on adult patients of most sizes and all genders.
